

INTERNATIONAL SEARCH REPORT

International application No.

PCT/US03/33489

A. CLASSIFICATION OF SUBJECT MATTER

IPC(7) : G01N/33/50, 53; C12Q 1/68; A61K 48/00, 39/395
US CL : 435/4, 7.1; 514/44; 424/130.1

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)
U.S. : 435/4, 7.1; 514/44; 424/130.1

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)
Medline, Cancerlit, Biosis, Lifesci, Biotechds, Scisearch, Hcaplus

C. DOCUMENTS CONSIDERED TO BE RELEVANT

Category *	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.
A	US 6,033,910 (MONIA et al) 25 January 2001	6, 7
X	Database Medline on STN, ACS (Columbus, OH, USA), Accession No. 2001489213, WONG et al, 'Profiling of protein kinases in the neoplastic transformation of human ovarian surface epithelium', abstract, Gynecologic Oncology, August 2001, Vol. 82, pages 305-311.	31-33
X	LUO et al. Human prostate cancer and benign prostatic hyperplasia: molecular dissection by gene expression profiling. Cancer Research. 15 June 2001, Vol. 15, pages 4683-4688, especially Figure 3, clone 45578.	31-33
X	KOCHEKPOUR et al. The von-Hippel-Lindau tumor suppressor gene in hibits hepatocyte growth factor/scatter factor-induced invasion and branching morphogenesis in renal carcinoma cells. Molecular and Cellular Biology, September 1999, Vol. 19, pages 5902-5912, especially 5905 under the headings of "In vitro invasion and migration assay" and "Branching-morphogenesis assay", and page 5906, under the heading "VHL inhibits HGF/SF-mediated branching morphogenesis and in vitro invasiveness of RCC cells"	1, 4, 8, 9-12

Further documents are listed in the continuation of Box C.

See patent family annex.

* Special categories of cited documents:	"T"	later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
"A" document defining the general state of the art which is not considered to be of particular relevance	"X"	document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone
"B" earlier application or patent published on or after the international filing date	"Y"	document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art
"L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)	"&"	document member of the same patent family
"O" document referring to an oral disclosure, use, exhibition or other means		
"P" document published prior to the international filing date but later than the priority date claimed		

Date of the actual completion of the international search

14 November 2005 (14.11.2005)

Date of mailing of the international search report

15 DEC 2005

Name and mailing address of the ISA/US

Mail Stop PCT, Attn: ISA/US
